

Firing charges - measure each piece and find out how much it costs. This covers both bisque and glaze firing.

Always round up the size.

April 2026

Height	30	\$4.20	\$4.80	\$6.90	\$9.40	\$12.60	\$17.20	\$22.40	\$28.30	\$35.00	\$42.30	\$50.30	\$59.10	\$68.50	\$78.60	\$89.50	\$101.00	\$113.20

Width

For only bisque firing then pay 40% of the above charge
 For only glaze firing then pay 60% of the above charge

To calculate the width of a piece that is NOT round or square then add together the width and depth of the piece and divide in half, this is the average width of the work and is used in calculating the firing charge.
